**Policy Fee**

The annual policy fee is $50.00 ($0 if a rider)

**Method of Payment**

Can be paid:
- Annually
- Monthly (through pre-authorized debit) – Modal factor: 0.09

**Underwriting Risk Classifications**

- Standard Non-smoker
- Standard Smoker
- Sub-standard

**Smoker Rates**

A smoker is considered someone who, in the past 12 months, has used more than 12 large cigars, or used any other tobacco, cigarette, e-cigarette, cigarillo, a pipe, chewing tobacco, nicotine patches or gum or betel nuts. Tobacco use includes use of small cigars (approximate diameter of cigarettes).

Users of marijuana and hashish may be considered with non-smoker rates if there has been no use of e-cigarettes, tobacco or nicotine in any form, in the last 12 months.

**Multi-life Coverage (2 Lives) – Available for CI Protect Plus Only**

Multi-life coverage is available for CI Protect Plus plans covering a maximum of 2 lives.
Conversion – Available for CI Protect Plus Only
Up to life insured’s insurance age 65, CI Protect Plus 10 and CI Protect Plus 20 coverage can be converted to a CI Protect Plus 75 coverage for the same coverage amount without providing evidence of insurability.

BUILT-IN BENEFITS

Benefit Payable on Death – Available for both CI Protect & CI Protect Plus
Upon Claims approval, Empire Life will pay a lump sum benefit of $1,000 if the life insured dies from any cause before becoming eligible for the CI Protect or CI Protect Plus critical illness benefit.

Non-Life Threatening Illness Benefit – Available for CI Protect Plus Only
Following a diagnosis of one of the six covered conditions and upon claims approval, the CI Protect Plus’ Non-Life Threatening Illness Benefit pays a lump sum benefit of 15% of the CI Protect Plus coverage amount for the life insured.

The benefit is payable a maximum of two times up to a total benefit of $50,000 for each CI Protect Plus coverage. Each payment of the benefit must be for a different covered condition under this benefit.

The six covered conditions, as defined in the contract provisions, are:

- Ductal breast cancer in situ
- Prostate cancer
- Coronary angioplasty
- Chronic lymphocytic leukemia
- Thyroid cancer
- Malignant melanoma

Payment of the Non-Life Threatening Illness Benefit will NOT reduce the CI Protect Plus coverage, and will not cause the CI Protect Plus coverage to terminate.

Medical Concierge Services – Available for CI Protect Plus Only
A non-contractual remote medical opinion service offered at no additional cost with CI Protect Plus plans only. Empire Life is proud to offer their medical concierge services through MedExtra Inc., a physician-lead Canadian organization that has been helping Canadians manage their health problems with the care they need to overcome gaps in Canadian healthcare today.

Rule-Out Critical Illness provides support information and guidance to accelerate the definitive diagnosis of a covered condition. Even if your doctor only suspects you have a covered condition, access to our concierge service at no additional cost is still available.

Remote Second Opinion is a comprehensive, multi-disciplinary case review by top specialists in Canada, at US Centres of Excellence or worldwide to confirm diagnosis or suggest the most up-to-date treatment and possible alternatives.

Critical Illness Care Management provides high level physician and nurse assistance underpinned by robust administrative support, for priceless peace-of-mind throughout the treatment and recovery period.
RETURN OF PREMIUM RIDER AT SURRENDER/MATURITY (AVAILABLE FOR CI PROTECT PLUS ONLY)

With this optional Return of Premium rider at surrender/maturity (ROP), if there is no CI Protect Plus critical illness benefit paid, the policy owner can get a percentage of the premiums returned if the CI Protect Plus coverage is surrendered. The percentage will reach 100% at age 75.

Issue Ages
18 to 55 (age nearest)

ROP Benefit Eligibility

- No CI Protect Plus critical illness benefit has been paid;
- The coverage is in-force for a minimum of 15 years; and
- The insurance age of life insured is at least 60

Eligible Premiums

Eligible premiums used to determine the ROP benefit include:

- CI Protect Plus coverage premiums, including medical extras and the policy fee if the CI Protect Plus is a base coverage
- ROP rider premiums
- If the CI Protect Plus coverage was converted from a coverage that had ROP, premiums for the coverage that was converted
- Waived premiums under the Waiver of Premium benefit

Note that premiums paid for other riders or additional benefits, temporary extras and policy fee if the CI Protect Plus coverage is a rider, will not be included in the ROP benefit calculation.

For Reduction of Coverage Amount (Partial Surrender)

If a partial surrender is requested prior to the life insured’s insurance age 60 and the 15th anniversary for the coverage, no ROP benefit will be paid, and the eligible premiums used to determine the future ROP benefit will be based on the reduced coverage amount.

If a partial surrender is requested after the life insured’s insurance age 60 and the 15th anniversary for the coverage, a partial ROP benefit will be automatically paid to the policy owner. The partial ROP benefit will be calculated based on the premiums paid for the coverage amount reduced and the applicable % of Eligible Premiums Returned outlined above. Future ROP benefit calculation will be based on premiums paid from the effective date of the partial surrender to the date that the future ROP benefit is calculated.
ADDITIONAL BENEFITS
(AVAILABLE FOR CI PROTECT PLUS ONLY)
