

2024 LIF

MINIMUM/MAXIMUM WITHDRAWAL PERCENTAGES

A Life Income Fund (LIF) is a registered account that pays you income from your locked-in pension investments. A LIF is meant to provide retirement income throughout your life, so the investments can't be withdrawn all at one time. LIFs are similar to Locked-in Retirement Income Funds (LRIFs) in that they also give you full control over your investments and have a minimum and maximum payment, but how the maximum payment amount is calculated is different than with other plans. In some provinces, you may be required to convert your LIF to an annuity at age 80 as well. Below is a table that shows the minimum and maximum withdrawal percentages for 2024 by province.
